Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 1272/2008/EC & GHS Standards SDS Revision: 2.0 SDS Revision Date: 2/22/2021

Classification of the Hazardous Chemical (in accordance with WHS Regulation) 1. PRODUCT & COMPANY IDENTIFICATION Product Name: ProOne® XPL-101 PENETRATING LUBRICANT (AEROSOL) 12 Chemical Name: Mineral Oil with Additives 1.3 Synonyms: 1.4 Trade Names: ProOne® XPL-101 Penetrating Lubricant (Aerosol) 1.5 Product Uses & Restrictions: Lubricating Oil 1.6 Distributor's Name Pro-1-One Lubricant Australia PTY LTD 1.7 Distributor's Address 6/165 Rookwood Rd, Yagoona NSW 2199, Sydney, Australia 1.8 Emergency Phone: Poisons Information Centre: Australia: 13 11 26 New Zealand: 0800 764 766 Tel: +61 1300 00 7761 1.9 Business Phone / Fax:

2. HAZARDS IDENTIFICATION

2.1 Hazard Identification:

This product is classified as a HAZARDOUS SUBSTANCE but not as DANGEROUS GOODS according to the classification criteria of NOHSC: 1088 (2004) and ADG Code (Australia). In the event of an exposure or medical inquiry involving this product, please contact a physician or local poison control center, who may seek advice from the U.S. manufacturer, and show them this SDS. DANGER! EXTREMELY FLAMMABLE AEROSOL. PRESSURIZED CONTAINER MAY BURST

DANGER! EXTREMELY FLAMMABLE AEROSOL. PRESSURIZED CONTAINER MAY BURST IF HEATED. MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAYS. CAUSES DAMAGE TO CENTRAL NERVOUS SYSTEM THROUGH PROLONGED OR REPEATED EXPOSURE. Classification: Aerosol 1; Asp. Tox. 1, STOT RE 1

<u>Hazard Statements</u> (H): H222 – Extremely flammable aerosol. H229 – Pressurized container may burst if heated. H304 – May be fatal if swallowed and enters airways. H315 – Causes skin irritation. H319 – Causes serious eye irritation. H372 – Causes damage to central nervous system (CNS) through prolonged or repeated exposure.

Precautionary Statements (P): P210 – Keep away from heat, hot surface, sparks, open flames and other ignition sources. No smoking. P211 – Do not spray on an open flame or other ignition source. P251 – Do not pierce or burn, even after use. P410+P412 – Protect from sunlight. Do not expose to temperatures exceeding 50 °F (122 °F). P260 – Do not breathe fumes/mist/vapors/spray. P264 – Wash hands and exposed skin areas with soap and warm water thoroughly after handling. P270 – Do not eat, drink or smoke when using this product. P280 – Wear protective gloves/protective clothing/eye protection/ face protection. P301+P310 – IF SWALLOWED: Immediately call a POISON CENTER/doctor. P331 – Do NOT induce vomiting. P308+P313 – IF exposed or concerned: Get medical advice/attention. P314 – Get medical advice/attention if you feel unwell. P332+P313 – If skin irritation occurs: Get medical advice/attention. P362+P364 – Take off contaminated clothing and wash it before reuse. P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P337+P313 – If eye irritation persists: Get medical advice/attention. P405 – Store locked up. P501 – Dispose of contents/container to licenses treatment, storage and disposal facility (TSDF).

	ilication of the Hazardous	Chemical (in acc	cordance with WHS Regulation)					
			4. FIRST AID MEASURES					
4.1	First Aid:	Ingestion: DO NOT INDUCE VOMITING. Contact ChemTrec +1 (800) 424-9300 or the nearest Poison Control Cente or local emergency telephone number for assistance and instructions. Seek immediate medical attention. I vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes holding eyelid(s) open to ensure complete flushing. If the eyes or face become swollen during or following						
		Skin:	use, consult a physician or emergency room immediately. Remove contaminated clothing and wash affected areas with soap and water. If discomfort per the skin reaction wasens, contact a physician immediately. Do not wear contaminated clothing has been prespected wasens.					
		Inhalation:	has been properly cleaned. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificities Seek immediate medical attention.	al respiratior				
4.2	Effects of Exposure:	Ingestion: Eyes:	If product is swallowed, may cause gastrointestinal disturbance. Exposure to mists/fumes/vapors/spray may cause eye irritation. Symptoms of overexposure redness, itching, irritation and watering.	may includ				
		Skin:	May be irritating to skin. The product can cause allergic skin reactions (e.g., rashes, welts, some sensitive individuals.	,				
4.0	Community and of	Inhalation:	Coughing, wheezing, shortness of breath, impaired pulmonary function. Irritation or soreness in and respiratory tract. Drowsiness, dizziness, headaches and nausea.	n throat, nose				
4.3	Symptoms of Overexposure:	Eyes:	redness, itching, irritation and watering.					
		Skin:	May be irritating to skin. The product can cause allergic skin reactions (e.g., rashes, welts, some sensitive individuals.					
		Inhalation:	Coughing, wheezing, shortness of breath, impaired pulmonary function. Irritation or soreness in and respiratory tract. Additionally, high concentrations of vapors can cause drowsines headaches and nausea.					
4.4	Acute Health Effects:	Non-irritating	when used as directed. Moderate irritation to eyes and skin near affected areas. Addi	tionally, high				
			ns of fumes/vapors can cause coughing, wheezing, shortness of breath, impaired pulmon coreness in throat, nose and respiratory tract.					
4.5	Chronic Health Effects:	Irritation or s Contains a p characterized mists at con-	ns of fumes/vapors can cause coughing, wheezing, shortness of breath, impaired pulmon coreness in throat, nose and respiratory tract. Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 1272/2008/EC & GHS Standards SDS Revision: 2.0 SDS Revision Date: 2/22/2021

Classification of the Hazardous Chemical (in accordance with WHS Regulation) 6. ACCIDENTAL RELEASE MEASURES 6.1 Spills: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. For small spills (e.g., < 1 gallon (3.8 L)) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse. For large spills (e.g., ≥ 1 gallon (3.8 L)), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Use ONLY non-sparking tools for recovery and cleanup. Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of HANDLING & STORAGE INFORMATION Avoid breathing mist or vapor. Avoid breathing gas. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Work & Hygiene Practices: Use only in well-ventilated areas. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid contact with skin and clothing. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. If you experience any symptoms listed on this label, increase ventilation or leave the area 7.2 Storage & Handling: Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 49 °C/120 °F. Do not handle or store near an open flame, heat or other sources of ignition. Exposure to high temperature may cause can to burst. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS) 7.3 Special Precautions: Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Use caution around energized equipment. The metal container will conduct electricity if it contacts a live source. This may result in injury to the user from electrical shock and/or flash fire. 8. EXPOSURE CONTROLS & PERSONAL PROTECTION 8.1 Exposure Limits: ACGIH NOHSC OSHA OTHER ppm (mg/m³) TLV STEL ES-TWA **ES-STEL ES-PEAK** PEL STEL IDLH CHEMICAL NAME(S) DISTILLATES (PETROLEUM), NF NF 5 NF NF MIST 5 HYDROTREATED SPENT HYDROCARBON PROPELLANT NA NA NF NF NF 5 NA NA MIST (350) NIOSH **ODORLESS MINERAL SPIRITS** 100 NA NF 790 500 NA 20000 SOLVENT REFINED HEAVY NA NF NF NF NA NA NA MIST When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ensure 8.2 Ventilation & Engineering that an eyewash station, sink or washbasin is available in case of exposure to eyes. 8.3 Respiratory Protection: No special respiratory protection is required under typical circumstances of use or handling. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR §1910.134, or applicable U.S. state regulations, or the appropriate standards of Canada, its provinces, E.C. member states, or Australia. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, a NIOSH-approved organic vapor respirator equipped with a dust/mist pre-filter should be used. Protection factors vary depending upon the type of respirator used. 8.4 Eve Protection: Safety glasses with side shields must be used when handling or using this product. A protective face shield is also recommended. Wear goggles and face shield if material is heated above 125°F (51°C). Have suitable eye wash water available. 8.5 Hand Protection: Use gloves constructed of chemical resistant materials such as neoprene or heavy nitrile rubber if frequent or prolonged contact is expected. If necessary, refer to U.S. OSHA 29 CFR §1910.138, the appropriate standards of Canada, of the E.C. member states. 8.6 Body Protection: Avoid prolonged and/or repeated skin contact. Use clean and impervious protective clothing (e.g., neoprene or Tyvek®) if splashing or spraying conditions are present. Protective clothing should include long-sleeves, apron, boots and additional facial protection. Remove contaminated clothing. Launder contaminated clothing before reusing. Contaminated leather goods should be removed promptly and discarded. When handling large quantities (e.g., ≥ 1 gallon), eye wash stations and deluge showers should be available. Upon completion of work activities involving large quantities of this product, wash

any exposed areas thoroughly with soap and water

STABILITY & REACTIVITY Stability: Stable under normal conditions; unstable with heat or contamination Change in color signifies exposure to ultraviolet light or exceeding shelf life. Will not degrade to unstable products. Discard 10.2 Hazardous Decomposition Products: solution. Hazardous Polymerization: 10.3 Will not occur. Conditions to Avoid: 10.4 Open flames, sparks, high heat, incompatible substances and direct sunlight. 10.5 Incompatible Substances: Avoid extreme heat and ignition sources. Store away from oxidizers 11. TOXICOLOGICAL INFORMATION Routes of Entry: Inhalation: NO Ingestion: YES 11.1 Toxicity Data: This product has NOT been tested on animals to obtain toxicology data. Toxicology data, found in scientific literature, is available for some of the components of the product and is presented below: Distillates (Petroleum), Hydrotreated Spent: LD₅₀ (oral, rat) > 5000 mg/kg; LD₅₀ (dermal, rabbit) > 2000 mg/kg. Odorless Mineral Spirits: LD₅₀ (oral, rat): 5,000 mg/kg Mineral oil mists derived from highly refined oils are reported to have low acute and sub-acute toxicities in animals. Effects 11.3 Acute Toxicity from single and short-term repeated exposures to high concentrations of mineral oil mists well above applicable workplace exposure levels include lung inflammatory reaction, lipoid granuloma formation and lipoid pneumonia. In acute and subacute studies involving exposures to lower concentrations of mineral oil mists at or near current work place exposure levels produced no significant toxicological effects. Chronic Toxicity: 11.4 In long-term studies (up to two years) no carcinogenic effects have been reported in any animal species tested. This product contains a severely hydrotreated mineral oil with less than 3 % DMSO extract as measured by IP 346 and is 11.5 Suspected Carcinogen not considered a carcinogen. 11.6 Reproductive Toxicity: This product is not reported to produce reproductive toxicity in humans. Mutagenicity: This product is not reported to produce mutagenic effects in humans. Embryotoxicity: This product is not reported to produce embryotoxic effects in humans. Teratogenicity: This product is not reported to produce teratogenic effects in humans Reproductive Toxicity: This product is not reported to produce reproductive effects in humans. Irritancy of Product: 11.7 See section 4.3 Biological Exposure 11.8 NF Indices: 119 Physician Treat symptomatically. Recommendations 12. ECOLOGICAL INFORMATION Environmental Stability: 12.1 This product is believed to be stable. Engineering controls should be put in place to prevent release to the environment. 12.2 Effects on Plants & Animals If applied to leaves, this product may kill grasses and small plants by interfering with transpiration and respiration. This product is not toxic to fish but may coat gill structures resulting in suffocation if spilled in shallow, running water. Product may be moderately toxic to amphibians by preventing dermal respiration. This product may cause gastrointestinal distress in birds and mammals through ingestion during pelage grooming. Effects on Aquatic Life There are no specific data available for this product.

CERCLA Reportable 15.4 Quantity (RQ): 15.5 Other Federal This material does not contain any hazardous air pollutants. None of the components in this product are listed as priority Requirements: pollutants under the CWA. None of the components in this product are listed as toxic pollutants under the CWA Other Canadian 15.6 This product has been classified according to the hazard criteria of the CPR and the SDS contains all Regulations: of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List. WHMIS Class B5, D2B (Flammable Aerosol, Other Toxic Effects). 15.7 State Regulatory Odorless Mineral Spirits is found on the following state criteria list(s): Florida Toxic Substances List (FL), Massachusetts Information: Hazardous Substances List (MA), Minnesota Hazardous Substances List (MN), New Jersey Right-to-Know List (NJ), Pennsylvania Right-to-Know List (PA) and Washington Permissible Exposures List (WA). No other ingredients in this product, present in a concentration of 1.0% or greater, are listed on any of the following state criteria lists: California Proposition 65 (CA65), Delaware Air Quality Management List (DE), Florida Toxic Substances List (FL), Massachusetts Hazardous Substances List (MA), Michigan Critical Substances List (MI), Minnesota Hazardous Substances List (MN), New Jersey Right-to-Know List (NJ), New York Hazardous Substances List (NY), Pennsylvania Right-to-Know List (PA), Washington Permissible Exposures List (WA), Wisconsin Hazardous Substances List (WI). 15.8 Other Requirements: The primary components of this product are not listed in Annex I of EU Directive 67/548/EEC: Distillates (Petroleum), Hydrotreated Spent: Toxic (T). Risk Phrases (R): 45 - May cause cancer. Safety Phrases (S): 53-45 - Avoid exposure - obtain special instructions before use. In case of accident or if you feel unwell seek medical advice immediately (show the label where possible). Odorless Mineral Spirits: Flammable (F). Risk Phrases (R): 12-65 - Highly flammable. Harmful: may

cause lung damage if swallowed. <u>Safety Phrases</u> (S): 53-45 – Avoid exposure – obtain special instructions before use. In case of accident or if you feel unwell seek medical advice immediately

(show the label where possible).

Class	Classification of the Hazardous Chemical (in accordance with WHS Regulation)								
	16. OTHER INFORMATION								
16.1	Other Information:	DANGER! EXTREMELY FLAMMABLE AEROSOL. PRESSURIZED CONTAINER MAY BURST IF HEATED. MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAYS. CAUSES DAMAGE TO CENTRAL NERVOUS SYSTEM THROUGH PROLONGED OR REPEATED EXPOSURE. Keep away from heat, hot surface, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °F (122 °F). Do not breathe fumes/mist/vapors/spray. Wash hands and exposed skin areas with soap and warm water thoroughly after handling. Do not eat, drink or smoke when using this product. IF SWALLOWED: Immediately call a POISON CENTER/doctor. Do NOT induce vomiting. If exposed or concerned: Get medical advice/attention. Get medical advice/attention if you feel unwell. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Store locked up. KEEP OUT OF REACH OF CHILDREN.							
16.2	Terms & Definitions:	See last page of this Safety Data Sheet.	•						
16.3	Disclaimer:	government regulations must be reviewed for app knowledge, the information contained herein is re completeness is not guaranteed and no warranties	This Safety Data Sheet is offered pursuant to OSHA's Hazard Communication Standard, 29 CFR §1910.1200. Other government regulations must be reviewed for applicability to this product. To the best of ShipMate's & ProOne, Inc.'s knowledge, the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness is not guaranteed and no warranties of any type, either expressed or implied, are provided. The information contained herein relates only to the specific product(s). If this product(s) is combined with other materials, all component

Classification of the Hazardous Chemical (in accordance with WHS Regulation)

DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

GENERAL INFORMATION:

CAS No.	Chemical Abstract Service Number					
EXPOSURE	EXPOSURE LIMITS IN AIR:					
ACGIH	American Conference on Governmental Industrial Hygienists					
С	C Ceiling Limit					
ES	Exposure Standard (Australia)					
IDLH	Immediately Dangerous to Life and Health					
OSHA	U.S. Occupational Safety and Health Administration					
PEL	Permissible Exposure Limit					
STEL	Short-Term Exposure Limit					
TLV	Threshold Limit Value					
TWA	Time Weighted Average					

FIRST AID MEASURES:

Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body.

HMIS-III HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

0	Minimal Hazard				
1	Slight Hazard				
2	Moderate Hazard				
3	Severe Hazard				
4	Extreme Hazard				

PERSONAL PROTECTION RATINGS:

A		
В		
С		
D		
E		
F		

Face Shield & Protective Eyewear

Dust & Vapor Half-Mask Respirator

Synthetic Apron

Full Face

Airline Hood/Mask or SCBA

OTHER STANDARD ABBREVIATIONS:

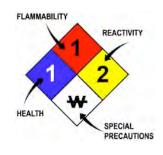

ML	Maximum Limit		
mg/m3	milligrams per cubic meter		
NA	Not Available		
ND Not Determined			
NE	Not Established		
NF	Not Found		
NR No Results			
ppm parts per million			
SCBA	Self-Contained Breathing Apparatus		

NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILITY LIMITS IN AIR:						
Autoignition Minimum temperature required to initiate combustion in air with no oth source of ignition						
LEL Lower Explosive Limit - lowest percent of vapor in air, by volume, explode or ignite in the presence of an ignition source						
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source					

HAZARD RATINGS:

0	Minimal Hazard			
1	Slight Hazard			
2	Moderate Hazard			
3	Severe Hazard			
4	Extreme Hazard			
ACD	Acidic			
ALK	Alkaline			
COR	Corrosive			
₩	Use No Water			
ОХ	Oxidizer			
TREFOIL	Radioactive			

TOXICOLOGICAL INFORMATION:

LD ₅₀	Lethal Dose (solids & liquids) which kills 50% of the exposed animals				
LC ₅₀	Lethal concentration (gases) which kills 50% of the exposed animal				
ppm	Concentration expressed in parts of material per million parts				
TD _{Io}	Lowest dose to cause a symptom				
TCLo	Lowest concentration to cause a symptom				
TD _{lo} , LD _{lo} , & LD _o or TC, TC _o , LC _{lo} , & LC _o	Lowest dose (or concentration) to cause lethal or toxic effects				
IARC	International Agency for Research on Cancer				
NTP	National Toxicology Program				
RTECS	Registry of Toxic Effects of Chemical Substances				
BCF	Bioconcentration Factor				
TL _m	Median threshold limit				
log K _{ow} or log K _{oc}	Coefficient of Oil/Water Distribution				

REGULATORY INFORMATION:

WHMIS	Canadian Workplace Hazardous Material Information System			
DOT	U.S. Department of Transportation			
TC	Transport Canada			
EPA	U.S. Environmental Protection Agency			
DSL	Canadian Domestic Substance List			
NOHSC	OHSC National Occupational Health and Safety Commission (Australia)			
NDSL	NDSL Canadian Non-Domestic Substance List			
PSL	Canadian Priority Substances List			
TSCA	U.S. Toxic Substance Control Act			
EU	European Union (European Union Directive 67/548/EEC)			
WGK	Wassergefährdungsklassen (German Water Hazard Class)			
HMIS-III	National Paint & Coatings Association Hazardous Materials Identification System			

WORKPLACE HAZARDOUS MATERIALS IDENTIFICATION (WHMIS) SYSTEM:

WORKE L	AUL IIAL	TINDOOO II		OIDENTIII) MOLITAGE	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	OILW.
